SATYA SANATAN BASTIA

Software Engineer | Frontend Developer | OCI Certified

+91 7205053993 | connectwithsatyasanatan@gmail.com | Bhubaneswar, Odisha | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Developer with over 1.5 years of experience building and shipping 5 production React.js applications for enterprise and government clients. Strong in JavaScript, React, Redux, responsive UI development, REST API integration, and reusable component architecture. Working knowledge of Python, Flask, FastAPI, and PostgreSQL for full-stack collaboration, with foundational knowledge of AWS and Oracle Cloud Infrastructure.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, React Redux, React Hooks, Framer Motion, MUI, Responsive Design, Bootstrap,
API & Integration: REST API Design & Integration, JSON, Axios, JWT Authentication
Backend: Python, Flask, FastAPI
Databases: PostgreSQL, SQL
Cloud: AWS (Cloud Fundamentals), Oracle Cloud Infrastructure (OCI)
AI & LLM: LLM API Integration, Prompt Engineering, AI-Assisted Development
Version Control & Tools: Git, GitHub, Docker, Figma, Draw.io, VS Code, Agile/SDLC, Debugging, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Associate Software Engineer May 2025 – Present
Bourntec Solutions Inc. | Bhubaneswar, Odisha

- Developed and shipped 3+ production-grade React.js applications for enterprise clients, independently owning component architecture, state management (Redux/Context), and REST API integration from design to deployment.
- Collaborated with backend and QA teams using Git-based workflows to coordinate and ship stable production releases on schedule, reducing deployment-related issues through consistent code review practices.
- Designed cloud architecture diagrams and technical proposal decks (Draw.io) for pre-sales engagements, supporting the business development team in client-facing technical documentation and solution pitches.

Software Development & Cloud Support Intern May 2024 – May 2025
Bourntec Solutions Inc. | Bhubaneswar, Odisha

- Built reusable React.js components and integrated REST APIs for NxDune and CloudSPX, two production platforms, diagnosing and resolving critical UI bugs within a 4-member Agile team across the full frontend development lifecycle
- Assisted the cloud support team with infrastructure monitoring and issue triage on live client environments and designed 3 cloud architecture diagrams for real client deliverables using Draw.io reviewed and approved by senior architects for external use.

PROJECTS

ERCS - Registrar of Cooperative Societies Portal (Govt. of Meghalaya & Govt. of Assam - Dept. of Cooperation)
| React.js, React Redux, REST APIs, MUI, React Router | https://ercs.meghalaya.gov.in/ | https://ercs.assam.gov.in/

- Contributed to a government e-governance portal enabling cooperative societies to register, amend byelaws, and file annual returns online replacing a manual, paper-based process at the Meghalaya RCS office with a digital self-service system.
- Built reusable React.js components across 16+ functional modules including registration, byelaw amendments, and annual return filing integrating REST APIs via Axios with form validation, loading states, and error handling for reliable submissions.
- Managed application state with Redux to handle role-based approval flows and dynamic UI rendering across approval stages, using React Router for module-level navigation and CSS Grid/Flexbox for responsive layouts across desktop, tablet, and mobile.

NxDune - Enterprise HRMS & Task Management Tool | React.js, JWT, REST APIs, MUI, React Router | https://nxdune.bourntec.com/

- Contributed to an enterprise project and people management platform enabling developers, project managers, HR, and delivery heads to manage tasks, tickets, timesheets, and resource allocation online replacing fragmented tools (separate Jira boards, email-based support, Excel timesheets) with a unified digital self-service system.
- Built reusable React.js components across modules (Kanban board, helpdesk, HRMS, timesheets), integrating REST APIs via Axios with JWT auth, form validation, and error handling.
- Managed state with React Context/React Query for role-based access across 7 user roles, using React Router for navigation and responsive layouts

Stratagem – AI-Powered ATS Resume Optimizer | React.js, Python, FastAPI, Groq LLM APIs
https://github.com/connectsatyasanatan-dev/Stratagem-Resume

- Built a full-stack application enabling job seekers to upload resumes and instantly check ATS compatibility with keyword gap analysis, replacing guesswork with data-driven resume optimization before job applications.
- Developed a Flask REST API backend integrating an LLM API for resume parsing and ATS scoring, handling structured JSON request/response flows for PDF/DOCX resume uploads.
- Connected frontend and backend via Axios, enabling real-time ATS score display from upload to keyword extraction.

EDUCATION

B.Tech, Computer Science & Engineering 2020 – 2024
DREIMS University, Cuttack, Odisha | CGPA: 8.6/10

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate | Oracle Cloud Infrastructure 2025 Certified Foundations Associate
